A proper service is about more than changing the oil. Our 114-point service check follows a structured inspection of your vehicle, helping identify wear, leaks and safety concerns alongside its scheduled maintenance.

The inspection covers the main areas below, with individual checks carried out where applicable to your vehicle and accessible during the service.

Clear advice on what needs attention

We explain the findings, highlight anything needing urgent attention and identify items to monitor or plan for. Where useful, photos or video help show you the issue. Any additional repairs are discussed and agreed before work goes ahead.

What is included? The 114-point check is an inspection, not 114 replacement items. Oil, filters, other service parts and additional repairs depend on the service booked and the vehicleâ??s requirements. Ask us to confirm the scope when booking. The check does not replace an ITV inspection or a separate investigation of a specific fault.

Good repair work starts with an accurate diagnosis. You will be told what has failed, what needs doing now and what can reasonably wait. Where useful, photos or video evidence are provided and unexpected additional work is discussed before it is carried out.

My background includes running an award-winning UK repair and MOT centre, with RAC and AA approval. I now bring the same focus on workmanship, communication and customer service to Lanzarote.
