[et_pb_text]

The workshop handles a wide range of major mechanical and fuel-system repairs, with diagnosis carried out before expensive components are replaced wherever practical.

Repairs include

default watermark

- Clutch and related drivetrain repairs
- Turbocharger diagnosis and replacement
- Injector diagnosis, replacement and coding where supported
- Fuel-system fault finding
- DPF and emissions-system diagnosis
- Cooling-system and major engine-related repairs

Where specialist testing is required, outside testing can be arranged and included clearly in the quotation.
