Diagnostics & Electrical Repairs

Description

[et_pb_section fb_built=â?•1â?³ background_color=â?•#ffffffâ?• custom_padding=â?• 60px||60px||false|falseâ?•][et_pb_row][et_pb_column type=â?•4_4â?³][et_pb_heading title=â?• Diagnostics & Electrical Repairs in Lanzaroteâ?• title_level=â?•h2â?³][/et_pb_heading]
[et_pb_text]

Modern fault finding requires more than reading and clearing a fault code. The workshop uses advanced diagnostic equipment together with live-data analysis and practical testing to identify the cause of warning lights, running faults and electrical problems.

Diagnostic work can include

default watermark

- Engine-management and warning-light diagnosis
- Live-data and actuator testing
- ABS, airbag and body-control diagnostics
- Injector coding and service functions where supported
- Battery, charging and starting-system checks
- Electrical fault tracing and wiring checks

You will be told what has been found and what the sensible next step is before repair work is authorised.
